

chris lee

cleer@cmu.edu
www.chrsl.net

I'm a creative guy with a passion for **developing** and **designing** software.

I believe that great products are both beautiful and functional.

I'm into **web & mobile development**, **social media**, and **tech entrepreneurship**.

If you're pushing the limits of technology, I'd love to intern with you this summer.

EDUCATION

Bachelor of Science in Computer Science May 2013

Carnegie Mellon University Pittsburgh, PA

Cumulative GPA: 3.20/4.00

EXPERIENCE

Stik.com Front-end Development & UI Design | Summer 2010

Interned at a young startup in San Francisco that uses Facebook connections to connect people with trustworthy service professionals. Played two roles.

- **Development:** Implemented major front-end functionality, such as **user profile pages**, **login functionality**, and **signup forms**. Worked extensively with **JavaScript (Ajax, jQuery, MooTools)**, **PHP**, and the **Facebook API**.
- **Design:** Overhauled the site's **aesthetics**, **branding**, and **layout**. Learned to design with **usability** and **conversion rate** considerations in mind. Set up maintainable design standards.

PROJECTS

- **Kittygram** kittygram.herokuapp.com
A web application that displays cat photos from Twitter users around the world. Built in Ruby and Sinatra.
- **Grapevine** grapevine.chrsl.net
A music discovery web application for Yahoo!'s Hack U competition. Built in jQuery.
- **Chess Bot**
An automated chess engine. Worked with a partner. Ranked #2 in a class competition of 50+ chess programs. Built in Java.

SKILLS

Programming:

Java

C

Ruby

Objective-C

Perl

Web:

HTML

CSS

JavaScript

jQuery

MooTools

Sinatra

PHP

MySQL

Applications:

Eclipse

Subversion

Git

Photoshop

Illustrator

COURSES

Great Theoretical Ideas of CS

Data Structures & Algorithms

Computer Systems

Entrepreneurship for CS

Technical Communication
